NORTH CAROLINA FOR PLEASANT VACATION

President Merchants' Bank And Trust Company and Party Visit Mountain Resorts.

(By N. M. C.) Travelling a total of 2,387 miles of which 1,498 was the total to and from Hendersonville, N. C., Chas. G. Moreau and party, retured to Bay St. Louis Tuesday night, reporting a fine trip with delightful vacation spent in the "Land of the Sky." The trip included travelling 891 miles while in the mountains, visiting va-

Mr. Moreau, who in addition to heading the Merchants' Bank and Trust Company as president, is editor and publisher of the Echo, and an Echo reporter after much "probing" secured a resume of the trip. A "short vacation, economical and entirely different," was what Mr. Moreau sought and found in North Carolina. Among the side trips were visits to Montreat; Swananoa, a town in the valley famous for manufacturing Beacon blankets; Asheville; Lake Kanuga; Lake Lure and Brevard. The trip from Montreat back to Hendersonville through Black Mountain, and Chimney Rock was a veritable "scenic" highway. At Brevard the party visited Rev. Harry Perry, former Episcopal minister at Bay St Louis, who returned the visit at Hendersonville. Near Brevard the famous Conostee Falls were visited five falls from mountain heights con-

verging into one. On the road to Brevard near Pisgah post ofifce the party saw "the most gorgeous dahlias." Miss Rosa Bishop who resides with her father, grows in her private garden thousands of fine dahlias, some measuring a foot in diameter. They were of all colors, the clay soil of that section and the high altitude conducting successful culture of this flower. In Hendersonville the party received many courtesies, not the least beng courtesies from W. B. Hodge president and H. B. Kelly, vice-president of the State Trust Company. At the Chamber of Commerce each Friday night is given a program by local and visiting artists in compliment to the tourists, and at one of these affairs Miss Melanie de Ben, 6-year-

old daughter of Mr. and Mrs. Hubert de Ben of New Orleans who spend much time in Bay St. Louis, was one of the performers, rendering vocal solos. This young child took part also in the "annual follies" at the Carolina theatre, leading the parade of "tomorrow's debutantes." known to the people there. A 3-cent tax is charged in North Carolina and is paid on purchases from 10 cents upward.

The party visited Mr. Paul Lacrone and family in Atlanta, Miss Doris Lecrone a neice of Mr. Moreau, and also visited Mr. and Mrs. Charles W.

Smith in Atmore, Ala. Having an auto for travel in the mountains is most important and enjoyable and adds much to a visit to North Carolina. In the party with Mr. Moreau were Mrs. Moreau, John

REFUNDING BONDS TO BE VALIDATED AFTER HEARING

All County Bonds, Totalling \$106,500, Will Be Refunded at Once.

A hearing was held in Bay St. Louis by Chancellor D. M. Russell Friday for the validation of \$106,500 bonds to be refunded,"thus refunding all bonds of the county's indebtedness. No objections were made to the validation and final papers were forwarded to Judge Russell Saturday for his signature.

The refunding bonds are to meet payments on bonds of the \$1,250,000 road protection issue of 1926 and on four road and bridge issues of 1923 and 1925.

The road protection bonds issued for sea wall construction, will draw \$81,000 of the refunding issue for maturities of 1932, already defaulted, and of 1933 and 1934. Of the refunding bonds, \$42,500 will mature in 1934 and the balance at the end of each year for five years.

The remainder of the refunding issue is to meet maturities of road and bridge issues; \$8,000 of the \$400,000 issue of 1923, due in 1934; \$4,000 of the \$160,000 issue of 1925, due in 1934; \$4,500 of the \$180,00 isof 1925, due in 1934; and \$9000 of the \$122,500 bridge issue of 1925, due in 1933 and 1934. These refunding bonds will mature beginning in 1934 and ending in 1939.

1931 Taxes \$1,408,346.55— Total for Country \$133,-284, 144,

During the year of 1931 the Class 1 railroads of the State of Missississippi paid in school taxes alone a total of \$1,408,346.55.

Statistics show that twenty of our midwestern states were paid a total of \$54,415,667.22 in these twenty states 45.75 per cent of the taxes (not including income taxes) paid by the railroads in 1931, went to the support of the public schools. On this basis the railroads of the

entire country paid an aggregate of \$133,248,144.00 for the support of our public schools in that one year. Without the support of the railroads it is easy to imagine what would happen to our public schools. Of the total taxes paid by the Class 1 railroads in Louisiana during the year of 1931, \$2,105,372.86 went to the support of the public schools

ON ARMISTICE DAY.

TT was on Sunday in November, 1918, that the German representatives accepted the conditions for an armistice dictated by allied military officers and, according to the agreement hostilities were to cease on Tuesday, November 11th at 11 A. M.

Between the signing and the effective date fighting continued and soldiers were being killed and wounded. This seems rather unnecessary and heartless as one looks back upon those exciting days. War Department records show that two hundred and thirteen American soldiers were killed in action on November 11th, 1918, up morning.

One naturally wonders why it was necessary to postpone the stopping of the battle so long after the signing of the agreement. Ostensibly, it was so that all units could be notified prior to the final hour and the conflict stopped instantaneously over the entire front. But, as far as the power, standards of living. THE EFFORT TO WRECK THE UTILITIES.

T has become the opinion of many dispassionate and honest observers that the principal motive behind ths proportionately heavy and unfair taxation of the utility industry, is to wreck the industry—and thus bring about a "public ownership" millenium in which the government will build and operate our power plants.

Today utility taxes run from 12to 17 percent of gross revenue. If taxes levied against utilities were also levied against other industries, there could be no complaint of injustice to one. The dangerous thing is the appearance of taxes and tax measures which are aimed at and applied to the utilities alone—special taxes, class taxes. A good example of this is the action of the Sen- ing brass, who all turned at once ate in shifting the 3 per cent federal power tax from consumer to investor—an unprecendented piece of legislation. In every business taxes are legitimately included in operating expense and are passed along to the consumer in the price of the service or commodity sold. Now the utility industry has been denied the right to follow a one stone at the army, a stone which pure ,sparkling water. This feature business practice of centuries' standing.

THE saying that it's never to late to mend

L doesn't apply to physical property. In these days, every community has its share of homes and business buildings which have been allowed to depreciate to the point where they are ready for the wrecking crew. Their degeneration may be laid to the door of false economy. While a dollar was "saved" temporarily, many dollars were lost because of it.

There are hundreds of thousands of properties which can still be put in good condition at a moderate cost, but which will be gone beyond redemption if work is put off much longer. Today we can still get in on bargain prices for most supplies and commodities—tomorrow will tell a different story. The wholesale price level has been skyrocketing, and now the real level is beginning to follow. You don't have to take anyone's word for it that this is the time to build and repair—the cold and unprejudiced statistical tables tell you that, and they permit of no argu- ations, which are bigger and more kept in jars of water, and retailed

Build now, improve now—provide jobs and owner no longer manages his purchasing power—remember that investment and employment are cheaper than charity, and that they make charity unnecessary.

A GOOD EXAMPLE.

TTOW many American citizens would pay over II thirty thousands of dollars without waiting for the outcome of a law suit which others similarly liable had instituted? Senator James Couzens, wealthy Republican from Michigan, recently paid to the receivers of two banks in Detroit \$30,423.39, representing assessments against his wife as a stockholder in holding companies for two closed banks.

Discussing the payment the Senator said: "The provisions of the law for double assessment the royal." are plainly stated. Mrs. Couzens and I believe that the moral obligation is plain and we do not desire to avail ourselves of any technical or other reasons for not paying the assessment."

With the large number of banks in the hands of receivers throughout the country many stockholders have had this question to decide. Some have sought to avoid payment of the double liability by various methods. Many have manfully acknowledged and settled their debts. Yet, the apparent injustice in making honest stockholders pay while those less scrupulous avoid the assessment has already caused the Federal law to abolish liability for stockholders in new national

A THOUGHT FOR THE FARMER. YOW that the time is fast approaching for the purchase and planting of Austrian Peas or Vetch as winter growing legumes for soil building, it is suggested that each farmer carefully study his soils needs and endeavor to meet these needs before next years crop season is too far advanced. Generally speaking, because of the porous nature of most soils in Hancock Coenty, humus and nitrogen are the most needed ele

With the demands of the present era-demands never dreamed of thirty years ago, it is imperative that the farmer of today take advantage of every opportunity for incresed crop yields in order to meet these demands.

It has been a common practice for a number of years to plant cow peas and other soil building crops during sion or washing, but rapid leaching and no eats. It is the center of honprevious soil building crops.

To meet the demands of today we must not only prevent leaching, but must constantly add to the fertility of the soil by utilizing every opportunity Mother Nature has given us. most expensive plant food element and, yet, according to scientists, the air over each acre of land or water contains 70,000 pounds or 35 tons of nitrogen.

In addition to the fertilizing value of the winter growing legume, the humus matter added to the soil when the crop is plowed under in early spring is of untold value as an absorbant of moisture for bridging over follow-up crops during dry periods in summer. The protection to the soil from winter rains by this cover crop in preventing washing will, in many cases, justify the expense of seeding the ground even though its fertilizing value is not considered.

WHAT HAPPENED TO ANNE?"

Don't fail to see, "What Happened to Anne," the play to be presented at statue but one failed to escape injury. This one is known as the Little Flower of Jesus, with not even the slightest scratch. It is as if by miracle, says the pastor, this one particular statue escaped the fate which be fell the others. Several were broken, others were well nigh disfigured. These, that bear mute evidence of the angry element, can plainly be noted as they were replaced in their accustomed position in the church. A statue of St. Expedite is noted, a figure in cast seen only in a few house. Waveland school, August 31. It is What Happened to Anne?"

LETTER OF THANKS IS RECEIVED

Mother Claire Writes In Appreciation of Many Kindnesses.

The Echo is in receipt this week of a letter from Mother Claire D'-Assise, for 30 years a resident of St. Joseph's convent at Bay St. Louis and for the past six years Mother Superior of the local academy, who was last week transferred to New Roads, La., as head of the school there. In addition to her appreciation to Chas. G. Moreau of the Echo for his kindnesses, personally and in the paper, she incorporates a card of thanks to the people of Bay St. Louis,

former Bay St. Louis resident, and Miss Bessie Toll of Wiggins, who went from Bay St. Louis Sunday to New Orleans accompanied by Miss Cleopatra Hillis of Bay St. Louis were robbed while in the city. After Miss Hillis had been deposited at her destination Miss O'Dom and Miss Todd rarked their car on St. Charles avenue near the city hall from about 3 to 5 p. m., Sunday afternoon. The doors of the car were locked, yet when they returned they found that unknown party or parties had in some manner opened the door of the car, stolen Miss Todd's week-end bag and its contents of wearing a panel and accessories, and had opened Mis-O'Dom's suitcase and taken out articles of clothing, some eld jewelry and a small sum of money. After the theft the car doors had again been locked. The theft was reported to city police who stated that similar depredations had been occurring frequently. No trace of the thieves? was found. Miss O'Dom remained in Bay St. Louis two days this week on business, leaving for her home Thurs-

Underweight Children Need More Iron in Their

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker-and easy prey to disease! To build up your child, give him Grove's Tasteless Chill Tonic. It contains iron which makes for rich, red blood.

Blood!

UIS, MISSISSIPPL CARE IN THE HOME **AVERTS ACCIDENTS** OFFICIAL ORGAN SAYS.

Many People Injured Every Year Through Mishaps At Home.

Our attention is called time and time again to the danger of operating a motor driven vehicle at a high rate of speed upon the public highways. We are also reminded to have our automobiles and trucks examined at regular intervals to see that they are mechanically sound in order 8.46 that we may not be responsible for 2.44 .25 .40 124.76 the death or crippling of any person 7.46 directly or indirectly.

It might be interesting to learn, 24.53 however, that next to the dangers of 11.50 the highway, the home proved to be the most dangerous place for our 17.17 people last year. This information will come as a surprise to most of 10.37 us here in Hanccok County who have 36.38 always thought of our homes as a 19.68 haven of safety and rest from the perils of the outside world.

However 28,000 lives were taken .75 1.20 100.91 in 1932 by home accidents, according to statistics recorded by Public Safety, official organ of the National Safety Council, Inc., of Chicago. 12.07 This was not all—there were some 4,200,000 non-fatal injuries in the homes of our country during the same period.

6.03 2.14.25 .40 0.03 .25 .40 2.14 .50 .80 327.89 .50 .80 170.17 .50 .80 55.57 .50 .80 793.95 .25 .40 57.31 .75 1.20 121.03 This was a decline over the figures for the year 1931, but this decline was smaller than in any of the other principal classes.

Falls were responsible for fortythree percent of all home fatalities and nineteen percent were attributed 4.76 to burns, scalds and explosions. An-7.34 other twenty-three percent of the fatilities occurred on stairs and in

The most dangerous portion of the 23.53 house, it seems, is the kitchen, being the scene of thirty-four percent of 82.36 all the fatilities reported. The use of kerosene and gasoline to start fires is a common cause of fatal burns 27.05 and should be discontinued by careful housekeepers.

All household equipment should be carefully examined before being used and only those which are sound permitted. Step-ladders are the cause of numbers of falls, some fatal and all painful.

After all it might be stated frankly that practically all accidents in the home are due to someone's carelessness and may be prevented if due caution is exercised. A more generous use of light would cut down the total of night accidents and how much better it would be to install a few more lights than to have to nurse & broken leg, arm or back.

Let's get every member of the family to cooperate to prevent home accidents. If children are taught to pick up their playthings and put them in their places, with the adults doing likewise with their possessions, quite a few accidents caused by stumbling over an unsuspected and unseen article could be avoided and thereby save the tempers and feelings of all concerned.

It would be a fine thing if we all cooperated in making our highways and our homes safer.

"Why do her people object to

NOTICE OF TRUSTEE'S SALE

Whereas, C. C. McDonald executed a deed of trust dated the 1st day of July A. D. 1925 recorded in Book 19, pages 458-460 of the Records of Mortgages and Deeds of Trust on land on file in the office of the Chancery Clerk of Hancock County, conveying to George R. Rea, Trustee, for the purpose of securing an indebtedness owing by the said C.C. Mc-Donald to Ezra W. Holden, lands situated in Hancock County, State of Mississippi, described as follows, to-

FIRST: Lot 306, First Ward, as per an official map of said city made by E. S. Drake, C. E., filed in the office of the Clerk of the Chancery Court of said county, on May 1, 1923. This lot lies between the eastern line of the Front St. and the western bank, or water's edge of the Bay of St. Louis, and has a width of

76 feet between parallel lines. SECOND: Lot 305, First Ward, as per said Drake map. This lot has a front on the western line of Front St., and runs back between parallel lines 76 feet apart, on a course north 70 degrees west, 400 (four hundred) feet, measuring along its north line, to the esat line of Lot 304 now owned by Edmond Scully. The north and south lines of this lot are continuations of similar lines of said lot 306. The above described lots are bounded on the north by lands of Charles Marshall and south by lands

the said C. C. McDonald, by deed
dated July 1, 1925.

And, whereas, the owner of the note above secured under the power given it in said deed of trust has substituted the undersigned E. J. Gex, substituted trustee instead of the said George R. Rea, which substitu-tion is recorded in Book 28, page 29, of the records of Mortgages and 14.26 Deeds of Trust on land in the office 3.03 of the Chancery Clerk of Hancock .06 .25 .40 3.53 .06 .25 .40 3.59 .15 .25 .40 6.99 .04 .25 .40 2.33 .90 .25 .40 10.86 .20 .25 .40 10.86 .24 .25 .40 8.97 .06 .25 .40 3.62 1.98 .25 .40 175.60

County, and
Default having been made in the payment of said indebtedness, and the said Holden having requested the undersigned substituted trustee to foreclose same for the purpose of paying said indebtedness and costs.

Now therefore notice is hereby paying said indebtedness and costs.

Now, therefore, notice is hereby given that I will offer for sale, and will sell land at public outcry, to the highest bidder for cash before the front door of the Court House of said County, in the City of Bay St.

Louis, within lawful hours on MONDAY, SEPTEMBER 18, 1933

for the purpose of paying said indebt-edness, and costs. This the 23rd day of August, A. D.
